Summary

Passionate graduate with a computer science Associates degree from Des Moines Area Community College. Experience with developing applications, including knowledge of databases and the website design process. I have hosted a site in the past and understand the development, file transfer protocols, and hosting of them.

Education

Des Moines Area Community College

Associates of Applied Science in Computer Information Systems

Experience

Hy-vee Aisles Online Shopper 2019-Present

Worked as part of a team to complete orders. Communicated about the status of orders to ensure things were done properly as well as training a couple of new employees on how to shop orders. Learned new technology and processes several times when things changed. Kept track of when orders were due to ensure nothing was late, or done too early in the case of cold items.

Skills

Soft

- Communication
- Teamwork
- Willingness to Learn
- Time Management

Hard

- Well-documented code
- Version Control
- Programming Languages (HTML, CSS, SQL, JavaScript, etc.)
- Software Testing and Debugging
- Object-Oriented Design
- Database Design and Development (MySQL, Oracle)
